BASEBALL

Bates 3; Norway A. A. 1

Pinching two singles and a two sacker in the eighth inning Saturday gave Bates a pair of runs after a deadlock, and sent the game into the tenth, but neither team scored after the deadlock broke.

away in the first until Bates jumped into the lead and was not overtaken. Air tight fielding was the rule with some of the surprise stuff put across seen here.

This season. Both teams used two pitchers. The ball was lively and clever fielding kept down hits and throttled the aspirations of many base runners.

Bates opened the show at the bat and faced Dutch Penfold, the New Haven twirler for Norway. Ray, the first Bates man up, cracked a single into center. While a second on McGraw's scratch and scored from that bag as Driscoll smashed a drive into left. This was their only tally until the closing moments of the battle. Bates retired in regular order until the fourth when a signal blow in that looked dangerous for Norway. McGraw singled, but fell into a put-out when Haskell fielded Driscoll's grounder to Dillon at second. Driscoll was also forced into a put-out at second when Gaudette hit sharply to Dillon. Gaudette continued to second on an overthrow while trying to double him at first. Nothing severe happened as Breen died in Purinton's hands.

With one gone in the fifth, "Dutch" Penfold passed two and scoring seemed inevitable. Ray laced a hot grounder to Lynch and went out on the sacrifice. Matthews was easily disposed of by Dillon to Lynch. Nothing serious happened this time.

Hunt went into the box for Norway in the sixth, but was not touched until the seventh when Clifford singled but vent no farther than second. A slugging blow in the eighth changed the weather and was productive of a lead Norway couldn't overcome. Matthews singled into left, was sacrificed to second by Driscoll on a bunt to Lynch and scored from that sack when Gaudette walked into left and "Pidie" Purinton made the throw home to catch him. During this play Gaudette made second. Duncan endeavored to nail him there but was unsuccessful. Breen with a mighty swing connected for a two sacker which put Gaudette across the rubber.

Norway started real business the first time up in the opening inning. Duncan whanged into right, Haskell sent down a sacrifice bunt, Dillon made first safely as Wiseman was a trifle slow handling the grounder and Purinton's single into right score Duncan. This run was the first, last and only look in Norway found. Bright, snappy fielding handled everything as the home outfit could send across. Haggerty and Penfold started around the course in the second and fourth. Purinton commenced a rally in the ninth with a single all but handled by McGraw, stole second. This encouragement went for naught as the inning closed in two strikes. "LaFrance batted for Dewhurst in the ninth, but could do nothing but swing three times.

Norway faced Gaudette four innings and were fairly successful with the stick, finding him for four singles. Clifford came in from right field and held Norway to a single for five innings, striking out five without a pass.

Both Penfold and Hunt pitched clever ball and worked strong in pitches. Aside from the first inning "Dutch" kept the home outfit out of the game by the strike out route. Hunt was also strong, but a string of hard hitters grouping their work in the fatal eighth put the argument into a higher court.

Norway played a splendid game before some 1200 enthusiastic fans who were behind the team from the start. No fan will question the statement that Bates is the second strongest team brought here this summer.

How Bad Backs Have Been Made Strong—Kidney Pills Corrected.

All over Norway you hear it. Doan's Kidney Pills are keeping up the good work. Norway people are telling about it—telling of bad backs made sound again. You can believe the testimony of your own townspeople. They tell it for the benefit of you who are suffering. If your back aches, if you feel lame, sore and miserable, if the kidneys act too frequently, or passages are painful, scanty and of color, use Doan's Kidney Pills, the remedy that has helped so many of your friends and neighbors. Follow this Norway citizen's advice and give Doan's a chance to do the same for you.

E. C. Libby, Sanborn St., says: "I had backache a great deal and it annoyed me to do anything. My head ached frequently, too. I also noticed little specks before my eyes and my sight blurred. I used various medicines, but it was left for Doan's Kidney Pills to give me lasting results. Since using them, I have had no return of the complaint and I have great confidence in Doan's."

Price 60c at all dealers. Don't simply ask for kidney remedy—get Doan's Kidney Pills—the same that Mr. Libby had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

FRYEBURG

Hastings-Piffeld

On Saturday, Sept. 4th, at 4 p. m., at the home of the bride's parents, occurred the marriage of Hugh W. Hastings of Fryeburg and Martha B. Piffeld of Conway, N. H. Rev. Charles E. Beals of the Congregational Church officiated, the double ring service being used, only immediate relatives were present. The ceremony was officiated by William Piffeld, sister of the bride, as bridesmaid, and Lawrence Warren of Arlington, Mass., as best man. Lohengrin's Wedding March was played by Anna Munson of Madison, N. J.

The ceremony was performed under a bower of evergreen and white asters, the color scheme of green and white being carried out with evergreen and white garden flowers, the dining room was decorated in yellow, candles, flowers, etc. The bride's gown was of ivory satin, tulle veil with bandeau of pearls and white wistaria and she carried a bouquet of white asters with shower of white wistaria. The bridesmaid was gowned in ruffled pink organdie and carried a bouquet of pink asters. The bride's traveling suit was of navy blue tuxedo with feather toque of copenhagen blue.

The bridegroom's gift to the bride was a deed of the new home in Fryeburg, the bride's gift to the bridesmaid was a pink cameo brooch.

The groom is the son of Mr. and Mrs. E. B. Hastings of Fryeburg. The bride is the daughter of Mr. and Mrs. H. B. Piffeld of Conway, N. H. After a month's camping trip to one of Maine's Lakes, Mr. and Mrs. Hastings will reside in Fryeburg where Mr. Hastings is practicing law.

This section certainly owes a lot to the automobile

LOOK at it just from the business standpoint, compared with, say, ten years ago—or even five.

Everything speeded up—made easier. Nearly every business man depending on the automobile to transport himself and his products.

That is one reason, perhaps, why more attention is being paid to tires—why tire costs are being figured closer and people are beginning to look for better tires.

We believe that people are entitled to better tires—the best they can get.

Not only the man with the

big car, but the man with the small car, and the medium sized car.

III

We represent U.S. Tires for that reason—because their policy is the same as ours—every tire as good as you can get it, regardless of the size of the car it is to go on.

It was that policy which led to the introduction of the straight side automobile tire, the pneumatic truck tire.

And you can't beat it.

IV

U. S. Tires are guaranteed for life, with no limitation of mileage.

It will pay you to talk to us about tires, if you are looking at them from a business standpoint.

BOLSTER'S MILLS

Grange Social
The ladies of Crooked River Grange of Bolster's Mills, disposed of their beautiful silk quilt which they have been making for a long time, on Friday, August 27th.

The numbers were drawn by little Leona Skilling of Bolster's Mills. The lucky number was 456 and was held by Mark E. Perry of Sweden.

A musical and literary entertainment was given during the evening and after the drawing of the quilt, a sofa pillow was sold at auction to Windsor Chute of Harrison.

There was a guess cake and Mrs. Sanford Annie guessed the nearest and won the cake.

Ice cream and cake was served in the dining room, followed by a dance. Music by Mr. and Mrs. A. W. Weston, Dr. E. A. Wright and Harry Smith, drums. The proceeds were very satisfactory and will be used to paint the Grange Hall.

NORTH HARRISON

Mrs. George Roberts and children who have been visiting at her sisters, Mrs. Elmer Thomas has returned to their home in Washington, N. H.

Arthur Stanley has again taken up his work in the station at Harrison which he had to give up for a time on account of sickness in the family.

Walter Dresser and son Roy have been doing some stone masonry for Mrs. Mark Twitchell for the past week.

Mr. and Mrs. Lewis Briggs attended the Grange Field Day at Geo. P. Carley's Friday also Mrs. Dana Stuart and mother.

Winnor Chute has recently returned from an automobile trip through Canada.

Mr. and Mrs. Norman Edison are going to Portland to work for the winter. Norman Edison recently had a telephone installed in his summer home.

Fortune smiles at a few and grins at many.

GILEAD

Martin V. B. Watson

The community was grieved to learn of the death of Martin Van Buren Watson, which occurred at Gilead on Thursday, August 26.

Mr. Watson was born in Randolph, N. H., March 4, 1842, and his early life was spent in New Hampshire where he was a mill man. Later in life he moved to Gilead where he has since conducted a farm.

He was married to Emma Wentworth March 21, 1862, and to them two children were born, Eddie, who died at the age of four years, and Herbert L. Watson who resides in Gilead.

Besides his wife and son he is survived by three brothers L. M. Watson of Randolph, N. H., P. N. Watson of Brunswick and L. L. Watson of St. Petersburg, Fla., and one half-brother, William Watson of Gorham, N. H., all of whom were present at the funeral which was held from his home.

Rev. W. C. Curtis of Bethel spoke words of comfort to the bereaved family. He was a member of the Congregational church of Gilead. Interment was in the Lory Cemetery, Gilead.

He was a kind husband and father and a man who held the respect and admiration of all who knew him.

There were many beautiful flowers which were silent tributes to a man whose presence will be much missed.

Tuesday, Aug. 24, from three to five, Christina Willard entertained her Sunday school class. Games and music followed with a fine treat of ice cream and cake.

Claud Cushman has moved his family into the Oramus Nute house so called, owned by Henry Russ.

Four carloads of cans have been received at the corn shop. The canning business opened last week as the crop is coming forward rapidly. The prospect for a heavy cut this year is excellent.

Cushman Place Burned

A serious fire occurred in town Sunday afternoon, Aug. 30. At about 4 p. m., a heavy shower came up from the south and at its height here a bolt of lightning struck the barn of Claude S. Cushman and set the hay on fire. It spread rapidly, and though a large number of people gathered there to assist, there was no hope of saving the house or sheds, all being connected. A large portion of the farming tools and household goods were taken out. Many tons of hay and quite an amount of grain was contained in the loss. This place was one of the pleasantly located farm homes of the town. The buildings were large and in good repair. The loss comes heavily upon Mr. Cushman as the insurance amounted to only \$3500. The family have moved for the present into one of the tenements of the Henry Russ house on the Paris road.

Ruby Willard has finished clerking in the store of Ella M. Dudley and will continue her studies at the high school.

Helen Leggett of Portland is visiting friends here during her vacation from the office.

B. H. Gilmore and family moved here from Concord, N. H., last week, and will occupy a rent on School street. Mr. Gilmore is the new elected principal of the high school.

THE Socony sign of supreme motor service is a common sight in rural Vermont and from Old Town, Maine to Chautauqua County, New York.

Automobile tourists have come to depend upon it. They have found it in out-of-the-way places—on many trips it was "a friend in need". And many large gasoline users in the cities know what Socony service means—they too have come to depend upon it. The uniform qualities of Socony gasoline have made it the logical fuel for every motor transportation requirement.

Socony isn't merely one of many gasolines. It represents fifty years of refining experience, and is made by the most improved methods known to the industry. It is truly the standard of quality gasoline.

Socony gasoline, with the proper carburetor adjustment, insures quick starting, clean combustion, low carbonization and full mileage from every gallon. Regular Socony users enjoy these advantages every day the year round, for Socony service enables them to fill up everywhere.

\$100.00 REWARD

It has been said by those who either have no Maine Gems to sell, or else because of ignorance that there is no such thing as a Maine Gem. My show case is filled with semi-precious stones, mined and cut in Maine, and sold throughout the U. S. in the best stores, including Tiffany & Co. of New York. The above sum will be paid to any person who can prove there are no Maine Gems. I would be perfectly safe in making it a million dollars reward, did I possess that amount of money.

THE DEM

(Political Advertisement)

To the Voters OF Oxford County:

Every voter in Oxford County knows that Bertrand G. McIntire of Norway would make a splendid Governor. His honesty and integrity is unquestioned. His character is above reproach. His fitness for the office is admitted by all. The Republicans can find nothing to say against him. Let us who know him intimately show the State of Maine how highly he is regarded at home. It is time we have a Governor from this county. In all probability not again for fifty years will we have the opportunity of supporting for this office an Oxford County man. Let us make it unanimous this time for Bertrand G. McIntire.

The present Republican Congressman from this district voted for the Peace Resolution which if it had been allowed by the President to become effective would have ended the war with Germany as far as the United States was concerned without asking Germany to pay one cent for damages or to make a single guarantee for the future. Any man who will support a proposition to let Germany go scot free deserves to be beaten. Rebuke him by voting the Democratic ticket.

The Republicans are opposed to the League of Nations. The League provides that the nations of the World shall be in a union to preserve peace. Thirty-four nations of the world,—namely, Brazil, Bolivia, Great Britain, Canada, Australia, South Africa, New Zealand, India, Czecho-Slovakia, Guatemala, Liberia, Panama, Peru, Uruguay, Siam, Greece, Poland, Japan, Italy, France, Belgium, Norway, Venezuela, Holland, Denmark, Colombia, Chile, Argentine, Paraguay, Persia, Salvador, Spain, Sweden, and Switzerland,—have actually joined the League. Even Germany has signed and will take the place assigned her. Only four nations stand outside the League—"Revolutionary Mexico, Bolshevik Russia, Unspeakable Turkey and the United States of America. Do you think we ought to stand with the last named group? Vote to have the United States take her place with the civilized nations of the world.

SERGT. McLAIN OUT WITH FACTS

Well-Known Salvation Army Worker Says Her Splendid Health Is Due To Tanlac

Mrs. Sarah McLain, a popular Salvation Army Sergeant residing at 5 A. Sumner Court, Portland, Maine, is now an ardent champion of the merits of the "Master Medicine" Tanlac since she began taking it a few weeks ago.

Mrs. McLain has been associated with the Salvation Army nearly all her life and has followed the good work both in England and the United States. She has carried on her work of charity in Portland for the past twenty-five years and is highly respected and esteemed by all who know her.

While discussing Tanlac, which has been so beneficial to her, Mrs. McLain said:

"I am deeply indebted to Tanlac for the good it has done me and will always praise it. My improvement has been so great that my friends have noticed it and have remarked about how well I look. "But before I began taking Tanlac I was in an awful run-down condition as a result of a serious operation three years ago, the effect of which I had not been able to overcome. My appetite was very poor, and having to live on the very lightest of foods on account of a weak stomach and bad digestion, I became extremely weak and nervous. The work of preparing breakfast for the family tired me so I would have to lie down and rest, and at times I was so nervous that I was almost frantic. I also had the worst kind of pains through my chest and just felt perfectly awful."

"One day I was looking over the paper and came across a testimonial that described my case so well that I decided to try Tanlac, and I can truthfully say I began feeling better right from the start and my pains disappeared with the first bottle. I have taken four bottles now and seem to be in just perfect condition. My nerves are steady and normal and I have strength to do my housework without feeling all tired out like I did before. My appetite has returned and I can eat and enjoy my three hearty meals a day and am feeling like an entirely different person. Tanlac is one medicine that everybody should know about, and as it was a testimonial that caused me to take it, I feel that I ought to make a statement myself and try to help others."

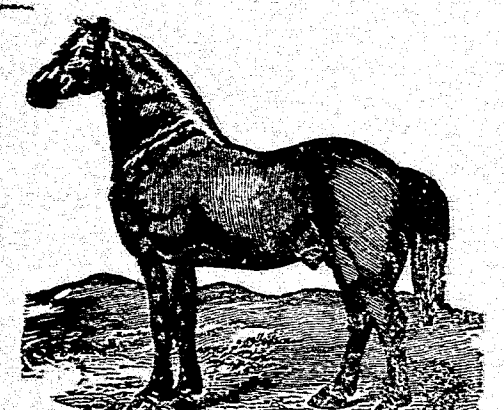

Tanlac is sold in Norway by A. L. Clark, Inc., in West Paris by S. T. White, and by O. H. Haskell, Sweden, R. D. Brown, Sweden.

WOMAN SUFFERED IN SILENCE

Made Believe She Was Well

A woman of New Auburn, Maine, writes: "There must be lots of women who feel as I did. I suffered in silence many times on account of my pains, but now I know that a good laxative is essential to good health. I pretended I was all right when I wasn't, and I had a salivary, unbecoming complexion which was not helped by face powders. Why didn't I try to cure myself, rather than pretend? After taking Dr. Tru's Elixir, I now know that a laxative is what I needed. Dr. Tru's Elixir is mild and pleasant to take, and works just right for me. My complexion cleared up—bright and ruddy—blemishes vanished, and every one remarked how much better I looked." Mrs. E. J. B. (New Auburn, Me.)

Dr. Tru's Elixir will help you too, don't pretend any longer.

NEW AGRICULTURAL COURSE

A new Agricultural Course is offered at the Norway High School.

In 1917 the Smith-Hughes law was passed in Washington. This law set aside about \$7,500,000 yearly for the teaching of just three things. Industrial Training; Domestic Science; and Agriculture. This money was to be divided between those schools which met the high standards set up in the law. Each state must have an able man to give his whole time to supervision of this special school. 2. The school must have a teacher specially trained in his subject and hired for a 12 month year. 3. A child under 14 years of age cannot be employed. 4. A practical nature. 5. The school must provide an especially equipped room. The best books on all subjects. 6. There must be summer supervision.

If a school properly meets the above, the Federal and State authorities agree to furnish \$2.00 on every \$1.00 spent on the work. The Norway High School is meeting these requirements in Agriculture.

Questions and Answers

Just what steps must you take to enter this course? Finish the 8th grade, come to High school and when the Principal asks what course he wants to take say "Agriculture."

Is there any extra expense? No. Will he get a diploma? Yes.

What will he study? 1st year, English, Algebra, Farm Arithmetic, Farm and Account, Agriculture. 1 (Field Crops, Soils and Fertilizers). 2nd Year: English, Algebra, Farm Shop Work, Agriculture 2 (Animal Husbandry, Dairying and Poultry). 3rd Year: English, Geometry, Agricultural Chemistry, Rural Economics & Sociology, Agriculture 3 (Vegetable Gardening and Fruit Culture). 4th Year: English, American History and Civics, Physics, Agriculture 4 (Farm Management and Agricultural Engineering).

Will the Agriculture be of the "book" kind? Yes, it is, but the best books will be used. No, in as much as every thing must be taught in a practical way and one-half of the time (on the average) must be spent in such work as soil testing, milk testing, cattle judging etc.

What equipment have you? About \$250.00 worth ordered to which more will be added.

How does this work compare with work done in an Agricultural College? Very favorably. The books and the equipment are the same. For example: In New York State, the boys taking the High school work in Animal Husbandry were given the same tests as were given at the college and the marks were of high standard.

Why is the teacher hired for 12 months? So that he can help the boys put into actual practice what he has studied. This will not interfere with the boys' summer work and will be of great help to him. In addition to this he will be available at all times to any farmer or group of farmers either for personal advice or as a grange speaker. He will not force himself on to anybody, but it is hoped that all farmers will feel free to call upon him to come to their place if they can help him.

Who can my boy do when he is through school? Come back to the farm a much more interested and valuable man. Get good work on a farm until he can buy one of his own. Get a job along some agricultural, commercial or industrial line, or take advanced work at an Agricultural College.

If he comes back to the farm will he have a lot of impractical ideas? We think not. The State Supervisor will check up on this. This is Herbert S. Brown, the State Supervisor of Maine. Any other questions you may have can be taken up either directly or indirectly with Edward H. Brown the High School Instructor, who can be found at the High School, or at 86 Main St., Phone No. 115-5. This course will start at the beginning of the high school year.

Edward H. Brown, Instructor in Agriculture.

What Lydia E. Pinkham's Vegetable Compound Did for Mrs. Warner.

Ontario, Wis.—"Every month I had such pains in my back and lower part of stomach I could not lie in bed. I suffered so it seemed as though I would die, and I was not regular either. I suffered for a year and was unfit to do my housework, could only wash dishes once in a while. I read an advertisement of what Lydia E. Pinkham's Vegetable Compound had done for other women and decided to try it. It surely did wonders for me. I have no pains now and I can do my housework without any trouble at all. I do not believe there is a doctor that can do as much good in female weakness, and you may use these facts as a testimonial."—Mrs. LAWRENCE E. WARNER, 1018 Pine St., La Crosse, Wis.

The reason women write such letters to the Lydia E. Pinkham Medicine Co. and tell their friends how they are helped is that Lydia E. Pinkham's Vegetable Compound has brought health and happiness to their lives. Freed from their illness they want to pass the good news along to other suffering women that they also may be relieved.

Marjorie Jordan of Bryant's Pond was a recent guest of her aunt, Mrs. Rose Ryerson.

Damp days

Damp, foggy weather, the kind that takes all the starch and ambition out of you—when it's not really raining, just wet and chilly—that's the worst disease-spreader known. To resist its unhealthy influence, your bowels and digestive organs must function perfectly. It is a wise precaution to take a liberal dose of "L.F." Atwood's Medicine.

A few doses of this reliable old family remedy will ward off many colds and sore throats, with their consequent loss of time and income. Its regular use will keep your system in excellent condition, and less energy will be wasted fighting disease. The true "L.F." is absolutely safe and will benefit every member of the family. We are constantly hearing of cases where three generations have used it continuously for all disorders of the stomach, liver, etc. Buy a bottle from your dealer today, 60 doses for 50c. "L.F." HAS NO PAIN NOW

What Lydia E. Pinkham's Vegetable Compound Did for Mrs. Warner.

Ontario, Wis.—"Every month I had such pains in my back and lower part of stomach I could not lie in bed. I suffered so it seemed as though I would die, and I was not regular either. I suffered for a year and was unfit to do my housework, could only wash dishes once in a while. I read an advertisement of what Lydia E. Pinkham's Vegetable Compound had done for other women and decided to try it. It surely did wonders for me. I have no pains now and I can do my housework without any trouble at all. I do not believe there is a doctor that can do as much good in female weakness, and you may use these facts as a testimonial."—Mrs. LAWRENCE E. WARNER, 1018 Pine St., La Crosse, Wis.

The reason women write such letters to the Lydia E. Pinkham Medicine Co. and tell their friends how they are helped is that Lydia E. Pinkham's Vegetable Compound has brought health and happiness to their lives. Freed from their illness they want to pass the good news along to other suffering women that they also may be relieved.

Marjorie Jordan of Bryant's Pond was a recent guest of her aunt, Mrs. Rose Ryerson.

The Most Important Investment For The People of Maine Today Is ?

The future of Maine as an industrial state—and all that this future can mean to Maine is new factories and more business, in increased pay rolls, lower taxation and full pocket books—is absolutely bound up in the development of power.

Place Maine power on the market, in the form of electric energy, and industries will flock here to be free from the oppressions of King Coal.

To place power on the market costs money—investment money.

One big company is developing power now and getting it ready for the market—Central Maine Power Company.

It is financing this development of power by the sale of its preferred stock to the people of Maine.

It is financing among Maine people and is thus keeping the ownership and the earnings of Maine power in Maine.

Why not place some of your savings in this investment that means added prosperity for Maine and the people of Maine?

The price of the stock is \$107.50 a share—the yield, 6½ per cent. net.
